(“CFP® Board”). The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. The CFP® is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. CFP® certificate holders are bound by CFP® Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

To earn the credential, each CFP® candidate must have a bachelor’s degree (or higher) from an accredited college or university and three years of full-time personal financial planning experience. In addition, candidates must take the CFP® Certification examination and complete a CFP® -board registered program or hold an accepted designation, degree or license. Every two years, CFP® certificate holders must complete a minimum of 30 hours of continuing education. More information regarding the CFP® is available at <http://www.cfp.net/default.asp>.

### *Chartered Financial Consultant*

The ChFC® designation has been a mark of excellence for financial planners for almost thirty years and currently requires more courses than any other financial planning credential. The curriculum covers extensive education and application training in all aspects of financial planning, income taxation, investments, and estate and retirement planning.

To attain the right to use the ChFC® marks, take a proctored exam for each course of study, have 3 years of full-time, relevant business experience within the five years preceding the awarding of the designation, and complete a minimum of 30 hours continuing education every two years. More information regarding the ChFC® can be found at <https://www.theamericancollege.edu/designations-degrees/ChFC>.
